

CEO Message

Dear All GDI staff,

With the introduction of our GDI's first Electronic Newsletter "that would normally cover important activities and events for every two months" , I would like to extend my gratitude to GDI's tutorial team for all their efforts made in designing the layout of new electronic Newsletter through GDI's in-house resources. Electronic medium for Company's newsletter is an excellent and cost effective tool that can be used to showcase company's main events.

Touching on other important subject, I would like to also express my appreciation to our management team members and staff being involved currently in the ongoing initiatives aiming for further rationalizing our business processes, in line with the board directives and support, which is anticipated to result in achieving further cost optimization. These are being attended with the involvement of third party specialized consultant.

Highly appreciate the commitment by all.

Regards,

Mubarak A. Al-Hajri
CEO

GDI & Seadrill Cooperation Agreement

On June 2018, GDI has signed a definitive agreement with Seadrill for the utilization of the offshore drilling rig "West Tucana".

As a part of the agreement the 'West Tucana', a JU 2000E, will be contracted to work in Qatar offshore for a firm period of 440 days with options in place for further extensions.

This partnership with Seadrill will lead to greater strategic and competitive advantage strengthening GDI's position as the leader Offshore drilling service provider in Qatar.

The contract was signed by Mr. Mubarak A. Al-Hajri, GDI's Chief Executive Officer and Mr. Matt Lyne, Vice president and Chief Commercial Officer of Seadrill, and attended by a group of Managers and team members from both parties.

GDI - IMS Recertification

GDI successfully achieved recertification to ISO 9001:2015, ISO14001:2015 and OHSAS 18001:2007 Integrated Management System from Bureau Veritas, a benchmark of expertise and excellence.

Independent third-party certification of GDI's management systems since the year 2009 has helped in continuously improving its business performance, in effectively managing business risks and in aligning its operations with international benchmarks.

GDI / Oxy Award Ceremony

On May 2018, GDI received first place a safety recognition award during Occidental Petroleum of Qatar Ltd.'s (OPQL) Annual HES Scorecard Program for 2017.

OPQL recognized GDI during its Quarterly Contractors Safety Meeting, (Q1-2018) held on 9th of May 2018.

2018-Q2 land rigs visit

GDI Management Visited the land rigs on 27th and 28th of Jun 2018 to ensure a direct communication with the rig crew, and to evaluate the safety performance.

OMN delivered Certificate and gift to the winner of the Stop work authority

DOIRC NO 42

On 5th of July GDI's CEO along with Operations and safety management participated in QP DOIRC 42nd meeting which was organized by QP Drilling and Completions Department and held at W Hotel in West Bay.

This forum aims to improve (HSE) performance by reviewing incidents, enhancing safety awareness, and sharing best practices among all Operators and drilling Contractors in Qatar.

GDI presented last six months HSE statistics and initiatives, which was commended by GDI's clients.

GDI's CEO while addressing with meeting audience appreciated QP for successfully organizing the event and reiterated the importance of Safety as top priority.
